“ Salaries of City Officers,	3,880 00
“ Contingent expenses and Miscellaneous claims,	7,027 04
Total expenditure,	\$100,964 78
Showing a balance and remain- ing in the Treasury, of	12,620 88
	<u>\$113,585 66</u>

The City Debt, on the first day of February, 1850, as per account of last year, amounted to the sum of \$56,976 85
Of this sum there has been paid during the
year, when falling due, 8,500 00

Reducing the debt to \$48,476 65

The times when this sum becomes payable, may be seen by referring to the Schedule of the City Debt, accompanying this Report.

For a detailed statement of the Poor and Almshouse, reference may be made to the report of the Overseers of the Poor, which is appended, and to which the attention of the citizens is directed. The expenditures for the Poor and Almshouse will be found under the appropriate heads in the details of appropriations and expenditures accompanying this Report.

The expenditures for Schools the present year is about the same as the last. A new primary school house has been built in Avon Place, Ward 2, at an expense, including land, of \$3,660 55, which, added to the ordinary expenses of teachers' salaries, fuel, appropriation to the Roxbury Grammar School, and contingencies, exhibits an aggregate of \$29,838 41.

The appropriation for Highways, Bridges and Sidewalks was made general; but the expenditures have been made in three sections, as has been the practice for many years. These sections were assigned a certain sum by the Surveyors of Highways, and the expenditures will be found in detail under their appropriate heads.

It appears by the report of the Commissioners, that in Wards 1, 2, 3, 4 and 5, there was expended for Highways and Bridges, \$6025 20; for Sidewalks, \$1,046 46; in Wards 6 and 7, for Highways and Bridges, \$1,699 81; for Sidewalks, \$220 07; in Ward 8, for Highways, Bridges, and Sidewalks, \$1,350 87—showing the total expenditure to be \$10,342 41.

The ordinary expenditures of the Fire Department fall below those of last year, in consequence of the resignation of the members of several companies in May last. The report of the Chief Engineer on the state and condition of the Department, with details of service and other subjects connected, is appended.

Three reservoirs have been built during the year: one in Lamartine street, (Ward 6); one corner East and Eustis street; and one on Copeland street, (near Rev. Mr. Huntington's.) The amount expended for reservoirs is \$912 44.

Beyond the ordinary expenditures, there has been but little outlay for permanent improvements the past year, amounting to \$7,028 46,—such as:

For new Engine House, (for No. 2),	\$1,455 47
“ new School House and land, Avon Place,	3,660 55
“ Reservoirs,	912 44
“ Widening Tremont Street,	1,000 00

Amounting to \$7,028 46

The act of the Legislature, relating to the Cemetery, requires that the proceeds of sales of lots, or rights of burial in Forest Hills Cemetery, shall be paid into the City Treasury, to be kept separate from any other funds of the city, and subject to the order of the Commissioners. The proceeds are to be devoted to the liquidation of the debt incurred in the purchase of the land, and for improving and embellishing the grounds.

The amount received into the Treasury from Feb. 1, 1850, to Feb. 1, 1851, from sundry persons, for sales and grading lots, including balance on hand, was	\$16,664 52
And the amount paid upon the drafts or orders of the Commissioners for the same period was	15,708 37

Leaving a balance in the Treasury, Feb. 1, 1851, of \$956 15

The Cemetery Debt, incurred in the purchase of the land, amounts to \$27,551 55. The times when this sum becomes payable, may be seen by referring to the Schedule accompanying this Report.

The attention of the citizens is respectfully directed to the report of the Commissioners of the Cemetery, appended, in which will be found an interesting statement of their doings the past year, the state and condition of the Cemetery, the receipts from sales and grading of lots, and the various items of expenditure, together with the names of the purchasers of lots.

Annexed are statements of the unexpended balances of the appropriations of the previous year, and the appropriations and transfers for 1850; the details of the expenditures under their proper heads, and the present balance of each appropriation, and a schedule of the real and personal property of the city.

All which is respectfully submitted.

For the Committee,

JOSEPH N. BREWER.

Roxbury, March 5th, 1851.

JOSEPH W. DUDLEY, *City Treasurer.*

Roxbury, February 22, 1851.

CITY OF ROXBURY, MARCH 1, 1851.

The undersigned, Joint Standing Committee on Accounts, in pursuance of the provisions of the eighth section of the Ordinance entitled "An Ordinance establishing a system of Accountability in the expenditures of the City," requiring them "to audit the Account of the City Treasurer at the close of each Municipal year, and as much oftener as they may deem expedient," hereby certify, that we have examined and audited the within account of JOSEPH W. DUDLEY, City Treasurer, and find the same correctly cast; and all payments and expenditures therein charged against the City, are sustained by necessary vouchers.

We find that there has been received into the Treasury, at sundry times within the year ending January 31, 1851, including the balance on hand February 1, 1850, the sum of One hundred and thirteen thousand, five hundred eighty-five dollars and sixty-six cents; and that there has been paid out from the Treasury, during the same period, the sum of One hundred thousand nine hundred and sixty-four dollars and seventy-eight cents, leaving in the Treasury, January 31, 1851, a balance of Twelve thousand six hundred and twenty dollars and eighty-eight cents.

REPORT

OF THE

OVERSEERS OF THE POOR.

THE Overseers of the Poor of the City of Roxbury, respectfully submit the following

REPORT:

As was anticipated, there has been great inconvenience in the management of the establishments for the reception, care and employment of the poor; in consequence of its being necessary to send a portion of the men and women who were capable of performing labor, on the land, or in the Farm House and Pilgrim Hall, and many of the children, during the season of cultivation, to Brook Farm,—and to retain the latter there, since last autumn: and unless an arrangement is made for removing all the inmates to West Roxbury, and thus forming one complete and perfect establishment, there appears to be no other alternative than to concentrate them at the Alms House, rather than to support two widely separated institutions; but in that event, an expediture of at least five thousand dollars will be immediately required to erect additional edifices, and a much larger sum, within a very few years, to properly provide for the accommodation, health and comfort of the annually increasing number of paupers.

As those subjects have been fully presented to the City Council, in former reports and the memorials which were submitted on the thirtieth of September, 1850, and the twenty-seventh of January last, it is considered that it might be deemed indelicately officious to obtrude any additional remarks; for it is confidently presumed that such a decision will be made, after the most thorough investigation, as will meet, in an effectual and satisfactory manner,

the requirements of humanity, and at the same time evince a just regard to the character, duty, and interests of the City.

The Superintending Committee of Brook Farm submitted the following report to the Board of Overseers of the Poor, at their last meeting, in relation to the management and condition of that establishment.

“The disadvantages under which your Committee have labored for the last two years, in the management, improvement and cultivation of the Farm, must be within the knowledge of the members of the Board. Mr. Cary, who had charge of the Farm when the last report was made, continued but a short time after; we then employed A. S. Meserve, and he remained but five months, when a better position offering, he accepted it, and we were without a Sub-Superintendent until S. P. Blake was engaged and his wife; and thus far, we think we were fortunate in our selection, as they both appear well qualified for their situations. Still, this repeated change of Superintendent, could not fail of retarding the progress of improvement. In fact, no fair test of the capabilities of Brook Farm to realize the expectations of the citizens of Roxbury, can be hoped for, until the City shall have furnished suitable buildings, for the accommodation of all the inmates of the Alms House, and the whole establishment is located at the Farm; then all the available force of the House can be applied to the best advantage,—directed and aided by the energetic hand and vigilant eye of the present Superintendent of the Alms House.

The committee do not feel called upon to make a detailed report of the produce, stock and expenses for the last year, as these items will be furnished by the superintendent. Most of the corn planted produced well, and gave good promise of what the Farm would do when under a proper state of cultivation. The potatoe crop, however, failed entirely, not yielding ten per cent. of the anticipated product. This failure was a serious drawback on the amount and value of the produce of the Farm.

By the account furnished by Mr. Meserve, it appears that

the whole amount expended on the Farm the past year, was \$2124 81. Of this amount something less than \$200 were expended in alterations and repairs at Pilgrim Hall, in conformity to a vote of the Board, by which the committee were directed to make the necessary arrangements to accommodate the children, their teacher and matron for the winter. But for this arrangement, by which the Alms House was relieved of from eighty to ninety of its inmates, the crowded state of that edifice during the winter would have been insufferable.

Annexed is a Report from Dr. B. E. Cotting, the physician of the Alms House, including statistical statements of the number of patients which have been received since January, 1846, being a period of five years, from which it appears that "more than two thousand cases of disease have received medical treatment."

Besides the duties at the Alms House, which have been as heretofore faithfully discharged, Dr. Cotting has attended to the vaccination of many of the children which attend the public schools, and such persons as the City Missionary thought proper to assemble weekly at his office, for that operation.

The superintendent, Isaac H. Meserve, has had imposed upon him great and very difficult duties, by having charge of the Alms House and Brook Farm; but he has acquitted himself so ably, as to have sustained the high reputation for fidelity and industry, which he has ever borne, since he has presided over that institution.

Too much praise cannot be given to Miss Hannah Hall, the Instructress of the school for the children at Pilgrim Hall; and Miss Mary Stuart, who as dame has had the superintendence of that establishment, has exhibited a capacity and disposition to regulate the preparation of the food, and attend to the clothes, lodging, accommodation, cleanliness and health of the numerous orphans, which have been placed under her care, as to render it a duty on the part of the overseers, to express their entire satisfaction, as to the remarkably appropriate manner, in which she has fulfilled all the conditions of the very responsible station in which she has been fortunately placed, both as respects the well-being of the children and the interests of the city.

H. A. S. DEARBORN,

*Mayor and ex-officio Chairman
of the Overseers of the Poor.*

It thus appears that during the past five years more than *two thousand cases of disease* have received medical treatment at the Almshouse Hospital. In a very few instances cases have been continued from one of the foregoing tables to the following in order to record a fatal termination, but no others. Almost all of those under treatment at the end of these years have recovered, or been so relieved as to be discharged. Those taken out by friends, or who left from any cause, before the treatment was concluded, have been recorded in a separate column. The insane have generally been sent to Worcester, to be supported there at the expense of the City and the State. Five hundred and ninety-five children have been vaccinated during these five years, and all who enter the House are vaccinated as soon as possible after admission, unless previously protected.

There have been very great improvements in the accommodations and arrangements for the sick at the House during the past five years, yet it cannot be denied that a building for the sick exclusively is still a great desideratum. As, however, my opinions on this subject have been recorded in previous reports, within the reach of any one who cares to know them, I forbear a repetition at the present time.

I remain, gentlemen, your obedient servant,

B. E. COTTING,
Physician to the Almshouse.

Roxbury, January 31, 1851.

REPORT
OF THE
COMMISSIONERS
OF
FOREST HILLS CEMETERY.

In conformity to the fifth section of "An Act relative to a Public Cemetery in the City of Roxbury," the Commissioners respectfully submit the following

REPORT :

Although the adversities, which the people have been compelled to encounter, in all their branches of industry, since the commencement of the efforts which were so energetically made for the establishment of a Rural Cemetery, have been remarkable for their extent and duration, still the result has been so favorable and satisfactory, as to render it no longer questionable, as to the expediency of the decision of the City Government, the propriety of the measures which were adopted for the development of the plan, and the certainty of a complete realization of the great advantages that were anticipated, even by those who were the most confident of success.

The continued demand for lots rendered it necessary that several of the Avenues and Paths, which had been laid out, should be, in part, completed, by being trenched, filled up with stones, gravelled, defined by sods, and the borders embellished with trees, shrubs, and herbaceous flowering plants. This has been done to an extent of over four thousand feet, in portions of Pitch Pine, White Oak, Linden, Mount Warren, Aspen, Willow, Hemlock, Cherry, White Pine, Birch, Spruce, and Juniper AVENUES, and Geranium, Eglantine, Bellflower, Anemone, Aster, Rosemary, Helio-

trope, Clematis, Cranberry, Hawthorn, Raspberry, Viburnum, Chrysanthemum, and Amaranth PATHS.

The compartment for single graves, on the Southern side of the Cemetery, having begun to claim public attention, as an eligible place of interment, and especially by such persons as did not require a lot of the usual size, it has been put in a condition to render it, not only more available for the purposes for which it was appropriated, but more interesting in appearance. Two Avenues have been formed, by which it can be conveniently approached with carriages from the southern and northern gateways; paths have been made through it,—sufficient ground trenched, six feet deep, for two hundred graves,—several hundred trees set out between the paths and in the surrounding borders, and an arbor-vitæ hedge on the northern side and eastern end. It is entered, near the western end, by a path from Spruce Avenue, through a small iron gate supported by granite posts, and there will be a larger gate, at the eastern end, upon Juniper Avenue. There is ample space for eight hundred graves, and for trees, shrubs and flowers on the sides of the paths and between the ranges of graves; and within a very few years, that large area will be as beautiful and interesting a place of sepulture as any portion of the cemetery.

In commemoration of the first instance, mentioned in the history of the human race, of the performance of funereal rites, it has been designated by the name of the "FIELD OF MACHPELAH;" as it was there that Abraham "made sure of the possession of a burying-place for Sarah his wife," and there were deposited the remains of that patriarch, and of Isaac, Rebekah and Leah.

The experiment of establishing a Nursery for rearing trees and shrubs, has been very successful. From seeds sown in the autumn of 1848, there were transplanted this spring ten thousand seven hundred oaks, chestnuts, mountain ashes, black walnuts, white ashes and horse chestnuts; and last autumn there were planted seeds of the rock maple, mountain or Indian maple, basswood, hop hornbeam, moosewood, beech, mountain ash, sycamore, oaks of several kinds, and hickory, in sufficient quantity to yield forty or fifty thousand trees. Over three thousand mountain ashes, from seed planted two years since, had attained a height, last autumn, of from three to four feet. Many hundreds of young trees have been removed from the Nursery, and set out in the borders of the avenues and paths, and in various other parts of the Cemetery.

Sixteen thousand seedling plants, of the larch, Norway spruce, Scotch fir, sycamore and linden, were imported from England last April, and set out in the Nursery, most of which lived and have grown remarkably well, and especially four thousand larches.

The avenue from Walk Hill street to the Cemetery has been graded, and a fence erected on the eastern side, on the bounds of the land owned by Dr. John C. Warren. Trees and shrubs have been set out on each side of that avenue; and the space, between Walk Hill street and the avenue, has been filled up with earth, and will be enclosed with a rustic fence, for the protection of the trees and shrubs which will be set out in it next spring, and will leave carriage-ways on two sides of the area, which will communicate with the avenue and street, in such a manner, as to render it convenient and pleasant to pass into or out of the Cemetery, through the southern gate.

The ground, on both sides of the northern gateway, will also be much improved in appearance before vegetation commences, by grading the ends of the avenues and paths near the gate, on the interior, and those which connect with Forest Hills Avenue, on the exterior side, as well as embellishing the area between the latter, by defining the margins with sods and stones, and planting out trees, shrubs and flowers.

During the past year fifty-three lots have been enclosed with iron fences, thirty-five monuments erected, four tombs constructed, and there have been two hundred and thirty-six interments,—making the whole number, since the consecration of the Cemetery, four hundred and eighty-eight. Twenty lots have been trenched, and eighteen finished, by being sodded, and the stone posts, for the support of iron fences, placed in them, to be sold the next year. A large extent of rustic stone work has been completed, for the support of embankments and protecting the borders of the avenues and paths; and a great quantity of loam removed from the meadow, for enriching the borders and the surface of the lots, before they are covered with sods.

The receipts and expenditures have been as follows :

As an additional number of Avenues and Paths have been formed and guide-boards placed to designate them, since the location and names of the others were published, a connected description of the whole has been annexed to this report, and a revised Catalogue of the names of the Proprietors, with the numbers and situations of their lots.

To Joseph W. Dudley, the City Treasurer, for the important and faithful services he has rendered, and to Joseph W. Tucker, the City Clerk, for keeping the accounts of sales, and preparing records of the lots, and other essential aid he has freely and zealously afforded to the Commissioners, they are under the greatest obligations.

Mr. Brims, the Superintendent, eminently merits unqualified approbation for the intelligent and efficient manner in which he has performed the responsible duties devolved upon him.

The instructive, refined, moral and pious influence, of this sacred Receptacle of the Dead, has been conspicuously illustrated, by the immensely increased number of persons who resort thither, either to select sites for the interment, or to do honor to the manes, of their relations and friends, who had passed to that “undiscovered country from whose bourne no traveller returns;” and from the diversified and pleasing manner in which ornamental cultivation has been combined with the natural scenery, and the elegant achievements of sculpture, with the substantial structures which have been

reared by mechanical genius and skill, the picturesque features of the grounds have been so far revealed, as to give the fullest assurance of their ultimate magnificence.

How often are those precious Family Sepulchres visited, either to weep, or bow down in prayer over the remains of dearly beloved or profoundly venerated kindred, or to plant flowers around their graves, or suspend garlands upon the monuments on which are inscribed their names and their virtues.

Such is the impressive and solemn, yet chastening and consolatory effect, on entering and passing through that sequestered and quiet Necropolis, that we are compelled, as by an Omnipotent command, to pause in reverential awe, and sadly realise how certain is the destiny of mortality,—how unsubstantial and fleeting are all the pleasures of this world. Then it is that compunction and resignation come, and Faith and Hope, as cheering and sanctifying angels; and it is then we are enabled to appreciate, the truth and wisdom, of the submissive exclamation of the afflicted Roman father, when he beheld the last of many sons consigned to the tomb:—

“ In peace and honor rest you here ;
Secure from worldly chances and mishaps ;
Here lurks no treason ; here no envy swells ;
Here grow no damned grudges ; here no storm,
No noise ; but silence and undisturbed sleep.”

H. A. S. DEARBORN,

REPORT

OF THE

CHIEF ENGINEER OF THE FIRE DEPARTMENT.

FEBRUARY 1st, 1851.

To the City Council of the City of Roxbury.

GENTLEMEN :

Agreeable to the requirements of Section 5th of the Ordinance regulating the Fire Department, I respectfully present the annexed Report of the condition of the Engine Houses, Engines, and Apparatus belonging to the City; the number of Reservoirs and Hydrants, with their location and condition; also the number of Fires and alarms within the City from February 1st, 1850, to February 1st, 1851, with the amount of loss and insurance.

The Engine Houses, Engines, and Apparatus generally are in good condition. The Department consists of 7 Engineers and 152 Firemen. There are 8 Engines, 9 Hose Carriages, 208 feet of Suction, 4300 feet of Leading Hose, 1 Hook and Ladder Carriage, carrying 4 Fire Hooks and 9 Ladders; 31 Reservoirs and 9 Hydrants, in good condition.

The Department has been called out during the past year from Fires 30 times, false alarms 6 times, boring chimneys 3 times, alarms originating out of the City, 16 times; total number of times called out 55. The loss by fire amounts to \$26,725; the insurance on the same to \$14,355.

Respectfully submitted,

A. S. PARKER,
Chief Engineer.
